Dear Sir:

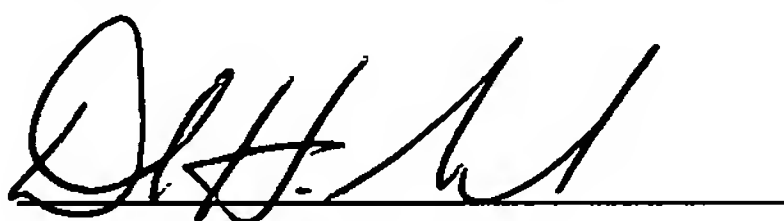

I, Daniel H. Golub, hereby declare:

1. I am making this Declaration in support of filing on behalf of nonsigning inventor under 37 C.F.R. § 1.47(b) with regards to U.S. Patent Application No. 10/510,082, filed October 1, 2004.
2. I am a partner in the law firm of Morgan, Lewis & Bockius, LLP, and counsel for the assignee, Mapper Lithography IP B.V., in connection with the above-referenced application. I am authorized to make this statement on behalf of Mapper Lithography IP B.V.
3. Ian Saunders is named as the inventor of the present patent application.
4. I make this Declaration to establish the assignee's diligence in attempting to find and reach Ian Saunders, so as to request that he execute the application.
5. I have first hand knowledge of the following facts, which are respectfully submitted to establish assignee's diligence in attempting to find and reach Ian Saunders:
  - a. Attached as Exhibit A hereto is correspondence that I sent to Ian Saunders, at his last known address. This letter was sent to the address for the inventor shown in the Request accompanying International Patent Application No. PCT/NL03/00247. The present application is the U.S. National Stage of International Application Patent Application No. PCT/NL03/00247. I did not receive any response to the letter attached as Exhibit A.

- b. In attempt to locate Ian Saunders, I conducted a search on the Google database (www.google.com) for the inventor. In particular, I entered the query "Ian Saunders lithography" into the Google database, and found a web page that identified someone named Ian Saunders as "Project manager, Division Optical Instrumentation TNO" in the Netherlands . Attached as Exhibit B is a print-out from the website where I found this information, which includes an e-mail address in the Netherlands for "Ian Saunders."
- c. Attached as Exhibit C is an e-mail message that I sent to the e-mail address identified by the database search discussed above, in attempt to determine whether the address corresponded to the inventor of the above-referenced application and, if so, requesting the inventor to execute the application. I did not receive any response to the e-mail attached as Exhibit C.

I declare that all statements made herein of my own knowledge are true and that all statements made on information from review of the file history of the patent application are believed to be true, and further that these statements were made with the knowledge that willful false statements or the like so made are punishable by fine or imprisonment or both under Section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the patent application or any patent issued thereon.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "D. H. Golub", written over a horizontal line.
